OFFICE OF THE CENSUS SUPERINTENDENT IN MYSORE,
RACE VIEW, HIGH GROUND,

Bangalore, dated 19th JULY 1930

FROM

M. VENKATESA IYENGAR, ESQ., M.A.,
CENSUS SUPERINTENDENT IN MYSORE.
BANGALORE.

CHIEF SECRETARY, 21 JULY

GENERAL MISCELLANEOUS BRANCH 543. 21 JULY

N.Madhava Rao, Esq., B.A.,
Chief Secretary to the Govt of Mysore,
B a n g a l o r e.

SIR,

I have the honor to state that a census of Industrial establishments and Industrial and Economic enquiries under certain specified heads were conducted in the State in 1921, along with the General Census under the instructions of the Census Comissioner for India. The ~~Gene~~ Census does not seem to have been quite successful as some industrial establishments did not co-operate and the Economic enquiries went on rather vague lines. On this occasion the Government of India have given up the idea of a special Census of Industry as too onerous to be conveniently undertaken along with the general Census. They have however provided a column for recording some information regarding industries in the General Schedule which is expected to compensate to some extent for the loss of information involved in the abandonment of the Census of Industry If the same course may be adopted in the State also is for consideration A Census of Industry on the lines adopted at the last Census would no doubt be too onerous to be combined with the General Census and enquiries in Economic welfare conducted by the issue of questionaires to prominent persons as was done in 1921 may give a general idea of conditions but are not likely to yield reliable statistics. It is therefore perhaps unnecessary to think of a Census of Industry and of enquiries on the lines adopted in 1921. It appears to me however that some simple statistics relating to organised industrial enstablishments and rural and cottage industries such as number of establishments, nature of industry, ownership, number of families or persons employed etc., may well be collected at the Census without very much additional trouble. Such information

Administrative Departments. If the idea of collecting these statistics is approved, I shall consult the Director of Industries and Commerce and the Secretary Economic Conference and submit details proposals later. I request therefore that orders of Government may be obtained in the matter and communicated to me.

I have the honor to be,

Sir,

Your most obedient servant,

M. Venkatesachariar

Census Superintendent.

CHIEF SECRETARY'S OFFICE
13 SEP. 1930

SIR,

I have the honour to invite attention to the correspondence ending with your letter No. --G.11671/census 8-30-2 dated the 29th July 1930 in regard to the collection of statistics relating to organised industrial establishments and statistical information regarding rural and cottage industries in the State in connection with the Present Census and to submit the following proposals after consultation with the ---. Director of Industries and Commerce and the Secretary of the Economic Conference. The Director of Industries and Commerce has sent me a list of large industrial establishments in the State prepared for the year 1929. Extracts of this list will be sent to various districts to be brought up-to-date so as to include all establishments now working and employing not less than 10 persons a day. To the Managers of these institutions a printed form indicating the information required will be sent and they will be requested to return the printed form filled with the necessary particulars to the Charge Superintendents of the Taluks in which their establishments are situated. This will d[illegible] organised industries. In regard to rural and cottage industries,

:o the Enumerators. Approval of Government may kindly be obtained

:o these propcsals.

I have the honour to be,

Sir,.

Your most obedient servant,

M Venkatasalyengar

CENSUS SUPERINTENDENT.

Instructions to the Enumerator.

This form is intended for the Census of Rural and Cottage Industries and not for factories or other organised industries.

When you have finished Preliminary Enumeration, you have an idea of the families in your block who are engaged in any such industry either as principal - occupation or subsidiary occupation. At this stage proceed with your preliminary record and this form to each family for which any industry has been returned and fill up the details required in the various columns.

Give each family a serial number in column 1 of this statement and describe the nature of the industry in column 2 as far as possible in the words used in the list on the first page. If some industry other than those mentioned should be found being practised, enumerate that also giving details.

The headings of columns 3 to 5 are clear. Note, however, that in column4, you should give the total number of persons in the family and in column 5, the number of persons actually engaged in carrying on the industry entered in column 2.

In column 6, enter details such as, how many handlooms are used in weaving, how many chandrikas are used in silk-work rearing, how many ovens in pottery &c.

The figures in columns 7 & 8 will of course be approximate. An effort must be made however to give as accurate figures as possible. It must be explained to the persons engaged in the industries that this information is not being collected with the view to levy any tax but to ascertain conditions in these industries; with a view, if at all, of devising ways for helping workers.

It is expected that the form will be filled up latest on the 16th February 1931 and handed over to the Supervisor when he next visits the block after that date.

Census of Rural and Cottage Industries.
